## Summary

Product Design Manager with over 10 years of experience in UX/UI, design systems, and front-end development. Proven track record in fintech delivering scalable solutions for credit, investment, and account management products. Skilled at leading cross-functional teams, implementing data-driven design strategies, and achieving measurable impact on usability and business KPIs.

## Work Experience

### ku.bo.financiero – Product Design Manager

Mexico City | Aug 2023 – Present

- Established governance of the Design System (tokens, components, documentation), reducing inconsistencies.
- Led discovery, prototyping, and usability testing that informed key product decisions and reduced iteration cycles.
- Managed and mentored a team of 4 product designers, aligning deliverables with company strategy and OKRs.

### ku.bo.financiero – UI Lead

Mexico City | May 2022 – Aug 2023

- Defined UI patterns and naming conventions, reducing handoff issues to development.
- Improved usability and consistency across web and mobile, raising user satisfaction.

### Gentera – UI Manager

Mexico City | Feb 2022 – May 2022

- Coordinated UI guidelines for digital initiatives.
